CIAT

Capacity Improvement and
Advancement for Tomorrow

KOICA Fellowship Program, CIAT

Like its acronym that sounds like "seed" in Korean, CIAT hopes to spread seeds of hope across developing countries. CIAT is a cooperation program where policy-makers, public servants and experts from developing countries are invited for technical training and knowledge sharing.

CIAT has established partnerships with a multitude of public organizations, research institutes, universities and others in Korea to offer quality training programs. Such efforts have resulted in a high level of satisfaction among participants. After completion of the program, CIAT participants play a significant role in spreading Korea's commitment and goodwill towards their society.

2020 KOICA Online Fellowship Program

Due to the worldwide spread of COVID-19, many countries have taken preventive measures, including border closures, in an attempt to curb the additional spread of COVID-19. Accordingly, the feasibility of the normal practice of in-person training for this year remains uncertain.

In response to the current situation, Korea International Cooperation Agency (KOICA) has recently launched new online training program. The main objective is to help each partner government facilitate training of fellows during this period of widespread COVID-19. This practice takes reference from the Korean government's experience of successfully managing COVID-19 as a nation and encouraging remote activities. Additionally, KOICA will continue to support partner countries with remote learning programs, seeking to establish a framework regarding distance learning when the current health crisis is brought under control.

To help ensure continuity in capacity building of fellow participants, KOICA will provide a wide range of online learning materials with accompanying guidelines. KOICA plans to design, operate, and evaluate online training courses, taking into account the overall conditions of partner countries and the subjects of each program.

PARTICIPANTS' MAJOR ACTIVITIES

All participants are requested to establish and present an Action Plan towards the end of the program. The Action Plan is one of the crucial program activities to which KOICA gives top priority. It is intended, firstly, to help program participants to come up with alternatives and solutions to the current issues and major challenges which participants' country/government/organizations are facing and, secondly, to plan what action participants should take in order to solve those challenges.

For a successful Action Plan, the first step is to prepare a Country Report. In preparing a Country Report before joining the KOICA training course, participants will have an opportunity to analyze their own countries' current issues and challenges as well as circumstances surrounding them. Preparation and presentation of a Country Report is part of the Action Plan building process in which participants will be involved throughout the program.

The second step is to build an Action Plan. With the Country Report in mind, participants are encouraged to develop an Action Plan by incorporating the observations, experiences, and findings from the program, specifically from lectures and discussions. During the Program Orientation Session, the Action Plan guidelines, including a PPT template for presentation, will be provided to participants with instructions on how to formulate concepts and ideas for composing a practical and feasible Action Plan.

The third step is to implement the Action Plan. After completion of the training, participants should implement the Action Plan according to its specifics and timeline. Participants are advised to do follow-up activities such as knowledge-sharing workshops or presentations with colleagues.

[STEP 1] COUNTRY REPORT

1. WHAT IS COUNTRY REPORT?

A Country Report is a pre-assignment prepared and submitted by participants before the course starts. Participants analyze their own countries' current issues and challenges as well as circumstances surrounding them, and share the findings with other participants and Korean experts in an effort to provide solutions to the identified problems and issues for their own countries.

2. HOW AND WHAT TO PREPARE

Participants are requested to prepare the Country Report individually or as a group and must submit it by the deadline specified below, so that it can be shared by lecturers in advance, before the program starts and also by fellow participants, moderators, discussants and Korean experts during the program in an effort to provide solutions to the identified problems and issues.

Each presentation should take no longer than 20 minutes or so, and use an adequate number of slides, or maximum 20 pages, with consideration of time constraints. Each Country Report presentation will be followed by a question and answer session which includes feedback from Korean experts.

[STEP 2] ACTION PLAN

1. WHAT IS ACTION PLAN?

An Action Plan is a plan intended to help program participants provide alternatives and solutions to the issues and problems that are identified in the Country Report. A good Action Plan entails who will do what, when, and how in detail. Since the Action Plan's feasibility is very crucial, participants should thoroughly discuss with their supervisor(s) whether or not the main topic and direction are viable in advance.

Based on the observations and findings from the lectures and discussions, participants will be asked to create an Action Plan in accordance with the Action Plan Guidelines to be provided. A session for developing and building the Action Plan will be held and the Action Plan guidelines will be provided to participants with instructions on how to formulate concepts and ideas for composing a practical and feasible Action Plan.

2. ACTION PLAN BUILDING PROCESS

- Applying knowledge acquired through lectures and discussions and working on measures to solve the issues or problems identified in the Country Report from various angles
